I WILL SAIL

I will sail through this day,
through the zenith of light,
surf the waves as they roar,
break with them on the shore.
With the wind on my skin,
I'll let day let me in
for the day is a door
none has opened before.
Let the new day begin.

I will sail through this night,
through the nadir of light,
cross the darkness inside
where there's no star to guide.
When there's no way to wend
I'll let faith be my friend,
for the water is wide
and the truth is a tide.
Every night has an end.
